Set You Free

1000mods

I am hurry
And I forget my name
Every single dayI don't need you
And I found my way
Don't care what you sayI am hurry
And I forget my name
It's a little bit late for shameI don't need you
And I don't feel no pain
There is nothing inside my vainI will set you free
I will tell you go away
I'm with you mother
He's done and that's his wayI am running
And I'm going no way
There's a world full o fame...Be safeI am hiding
To avoid endless days
Can't you have what he has these days?I will set you free
I will tell you go away
I'm with you mother
He's done and that's his way
