

With My Eyes Closed

Bee Gees

Say you never send me away
Making me a memory
Telling me to find me a life
Change, there's no changing
What cannot be changed
You are witness to a silent conversation
Nothing but the black of night
No one ever takes your place
Gotta let the pantomime play
Not to worry, my telepathy
An' I bring you into me there'll be no separationAn' I tell you
I will climb inside your world
An' at the dawn of history
I was born to find this girlAn' I can see you with my eyes closed
I can feel you when you're near me
Just the knowing that you
Hear me, could be
You could measure my love
I can touch you with my hands tied
(Hands on love)
It don't take no extra feeling
(You believe)
Let your imagination, just run
(Take it and run)
You can measure my loveAn' we tell you
We can stop those tears you cry
We can ride that storm together
An' all the love that lasts forever
An' forever, an' foreverCling to the vine and the vine never breaks
It's a message from a ship to a shore
For the soul and the sacrifice, pain
There's no fury
Like a woman scorned
We could be victims of a lethal combinationIt's the hour
It's the sword that hides the stone
An' one of us holds the power
There to forge our hearts together
An' forever, an' foreverI can see you with my eyes closed
(You're so far)

I can feel you when you're near me
(Where you are)
Just the knowing that you
(Eyes so wide)
Hear me, could be
You could measure my love
I can touch you with my hands tied
(Hands on love)
It don't take no extra feeling
(You believe)
Let your imagination just run
(Hands on love) You can measure my love
(My love)
You can measure my love
(My love)
You can measure my love
(My love)
You can measure my love
(My love)
You can measure my love
(My love)
You can measure my love
You can measure my love
You can measure my love
