Just Say So

Down To Earth Approach

Just say so
Just say so
Just say so
Just say so
Just say so
Just say so
verse 1.
I see the look disappearing from your eyes, eyes yeah
We complicate things every time we fight, fight yeah
Painting pictures in my mind, mind yeah
All this time I'm being blind, blind
Well I tried so hard but it still goes on
chorus.
If you're going to leave me,
don't hesitate, don't believe me
Just say so, just say so
Lovers cant be leaders, they need to scream feelings
They say so, they say so
verse 2.
Damn feelings burning my spirit inside, inside yeah
I'm half the man you can barely recognise, recognise
Love can take me for a ride, ride yeah
Turning tables changing times, times
Well I tried so hard but it still goes on
chorus
If you're going to leave me,
don't hesitate, don't believe me
Just say so, just say so
Lovers cant be leaders,
they need to scream feelings

They say so, they say so
If you're going to leave me,
don't hesitate, don't believe me
Just say so, just say so
Lovers cant be leaders,
they need to scream feelings
They say so, they say so
verse 3.

If you wanna feel like me, be like me yeah, me yea
If you wanna figure out me, be like me yeah
chorus.
If you're going to leave me,
don't hesitate, don't believe me
Just say so, just say so
Lovers cant be leaders,
they need to scream feelings
They say so, they say so
If you're going to leave me,
don't hesitate, don't believe me
Just say so, just say so
Lovers cant be leaders,
they need to scream feelings
They say so, they say so
Just say so
Just say so
Just say so
Just say so
Just say so
Just say so
