

Just Say So

Down To Earth Approach

Just say so

Just say so

Just say so

Just say so

Just say so

Just say so

verse 1.

I see the look disappearing from your eyes, eyes yeah

We complicate things every time we fight, fight yeah

Painting pictures in my mind, mind yeah

All this time I'm being blind, blind

Well I tried so hard but it still goes on

chorus.

If you're going to leave me,
don't hesitate, don't believe me

Just say so, just say so

Lovers cant be leaders, they need to scream feelings

They say so, they say so

verse 2.

Damn feelings burning my spirit inside, inside yeah

I'm half the man you can barely recognise, recognise

Love can take me for a ride, ride yeah

Turning tables changing times, times

Well I tried so hard but it still goes on

chorus

If you're going to leave me,
don't hesitate, don't believe me

Just say so, just say so

Lovers cant be leaders,
they need to scream feelings

They say so, they say so

If you're going to leave me,
don't hesitate, don't believe me

Just say so, just say so

Lovers cant be leaders,
they need to scream feelings

They say so, they say so

verse 3.

If you wanna feel like me, be like me yeah, me yea
If you wanna figure out me, be like me yeah
chorus.

If you're going to leave me,
don't hesitate, don't believe me

Just say so, just say so

Lovers cant be leaders,
they need to scream feelings

They say so, they say so

If you're going to leave me,
don't hesitate, don't believe me

Just say so, just say so

Lovers cant be leaders,
they need to scream feelings

They say so, they say so

Just say so

Just say so

Just say so

Just say so

Just say so

Just say so
