

Made In America

Toby Keith

my old man's that old man,
spent his life livin' off the land,
dirty hands, and a clean soul.
breaks his heart seein' foreign cars,
filled with fuel that isn't ours
and wearin' cotton he didn't grow he's got the red, white, and blue flyin' high on the farm
semper fi tattooed on his left arm
spends a little more at the store for a tag in the back that says u.s.a.
won't buy nothin' that he can't fix,
with wd40 and a craftsman wrench
he ain't prejudice he's just, made in america his wife, she's that wife that decorates on the 4th of july
but says "every day's independence day"
she's golden rule, teaches school,
some folks say it isn't cool but she says the pledge of allegiance anyway. got the red, white, and blue flyin' high
on the farm
semper fi tattooed on his left arm
spends a little more at the store for a tag in the back that says u.s.a.
won't buy nothin' that he can't fix,
with wd40 and a craftsman wrench
he ain't prejudice he's just, made in america born in the heartland, raised up a family
of king james and uncle sam got the red, white, and blue flyin' high on the farm
semper fi tattooed on his left arm
spends a little more at the store for a tag in the back that says u.s.a.
won't buy nothin' that he can't fix,
with wd40 and a craftsman wrench
he ain't prejudice he's just, made in america made in america
made in america my old man's that old man,
he's made in america america!
