

Take Me Dancing

Will Joseph Cook

Here's to Julian, a man among a million others
turned his back upon it all
raise another glass then smash it up into its fragments
walking barefoot on the ground
and as I fall into the bottle bank
(bottle bank)
you can make me into anything
as long as I'm reflecting you
don't let this love
(I could be the answer to)
all of your prayers
(take me dancing)
no that ain't enough
(I could be the answer to)
all of your prayers
take me dancing
sing to Emily, make her laugh and talk her accent
see the colour in her eyes
then we'll take her palm and joke about our life together
lying, smoking on the ground
and as I fall into the bottle bank
(bottle bank)
you can make me into anything
as long and I'm reflecting you
don't let this love
(I could be the answer to)
all of your prayers
(take me dancing)
no that ain't enough
(I could be the answer to)
all of your prayers
take me dancing
every moment
(every moment)
always like this
(always like this)
we got our problems
(we got our problems)
don't let let this love

I could be the answer to
all of your prayers
(take me dancing)
no that ain't enough
I could be the answer to
all of your prayers
(take me dancing)
we could walk to the sun raising
we could take to Americana
out of us don't make a difference
(take me dancing)
