My Music

Troop

Steve
Ah check it out I've got a story to tell you
Yes I'm talkin' about the 1st troop tour six
Days a week what a catastrophe
Yeah I know we got no sleepRodney B.
But we enjoyed the applause we didn't disregard
The ladies screamin' at our heavy duty bodyguards
We rocked hard with the mics in hand but
There's a couple of things I want you to understandAllen
Late at night I look up to the moon
And I think to myself I would like to go home reall soon
I feel the music caught up in me
I'm a part of the beatWhen they bring down the lights
Another lonely night
Just kickin' it with my music
And when the silence falls
And there are no more applause
Here's a little groove and you can use it
My musicReggies
Now anyways from this end to that end
Troop is in the house and we'll keep you partyin'
It didn't take us long to learn our cards
We had the headliner workin' real, real hard
Though we're tiredJon-Jon
We had no desireReggie
To stop rockin'Jon-Jon
At any time, so understand now
Troop will never fail yaReggie
So listen as I let steve tell yaJon-Jon
(Yeah boy)Steve
Late at night when we're all alone
And the phone keeps on ringing
A thousand girls callin' me
They're in love with what they see
But how could this beWhen they bring down the lights
Another lonely night
Just kickin' it with my music
And when the cheering stops
And the last curtain drops

Here's a little groove we hope you use it
My musicSteve
Now when it's time to performReggie
We never go diarmedSteve
Ao all perpetrators better learn tobe alarmedReggie
The five oof us yeahSteve
We step on the stage, we're here to cool you off
Like a full glass of minute maid breakdownAllen
Well late at night we have a show we've gotta
Run, we get picked up in a limo we perform at one
Yeah the five of us yeah we step on the stage
Dressed in gold and black with the lights in
Our face girl glamour, glitter is what you
Believe there's more to an entertainer's life
You see, we get lonely stressed out
And they still can't fade us
Take a cut from my sabre
Like Walker took from Darth Vader
