

# Be Mine

## Black Kiss Superstar

Late at night just around midnight  
Dirty eyes looking at your breast Sweet smile, broad across your sweet head  
I just wish to be in your bed You can't escape now, don't lose your time  
Come on baby ...you gonna be mine Sweet perfume, big black eyes  
Long strong legs for which anyone would die The way you move makes me lose control  
Wakes up the devil in my soul You can't escape now, don't lose your time  
Come on baby ...you gonna be mine Sweet perfume, big black eyes  
Long strong legs that anyone would die The way you move makes me lose control  
Wakes up the devil in my soul You can't escape now, don't lose you time  
Come on baby ...you gonna be mine
