

Collide (feat. Avicii) (Afrojack Remix)

Leona Lewis

I'll pick you up when you're down
Be there when no one's around
When you're in unfamiliar places
Count on me through life's changes I'm in tune with how you feel
Everything bout this is real
When you're in unfamiliar places
Count on me through life's changes You're all I want, yeah yeah
I know you're the one, yeah
You're all I want, yeah
I know you're the one, yeah Crash into me
At full speed
Crash into me
We can collide, we can collide Crash into me
At full speed
We can collide, we can collide
We can collide, we can collide Crash into me
We can collide, we can collide
We can collide, we can collide When you're in unfamiliar places
Count on me through life's changes Know that you're never alone
In me you can find a home
When you're in unfamiliar places
Count on me through life's changes You're all I want, yeah (yeah)
You're all I want (oh), yeah (yeah yeah)
You're all I want, yeah (you are the one)
I know you're the one, yeah (you are) Crash into me
At full speed
We can collide, we can collide
We can collide, we can collide Crash into me
We can collide, we can collide
We can collide, we can collide We can collide, we can collide
We can collide, we can collide
