

# Just Another Day

Serena Ryder

I ran outside, right into you, and instantly you said you knew  
that you were the only one, I'd ever need to know

You said you knew the answers  
and you said, that it's just another day

I came here with a voice, a chance to make a choice  
an island of a mind, with bridges built with time  
and now that I can see, why don't you come with me  
'cause it's just another day

It's just another day, it's just another day  
and now that I can see, why don't you come with me  
'cause it's just another day

I'm not saving grace, use it all the time  
sometimes it gets misplaced, denies that it is mine  
and then I just can't see, I get lost in misery  
but it's just another day

It's just another day, it's just another day  
and now that I can see, why don't you come with me  
'cause it's just another day

It's just another day, it's just another day  
and now that I can see, why don't you come with me  
'cause it's just another day

Come with me, come with me, come with me, it's just another day.

It's just another day, it's just another day  
and now that I can see, why don't you come with me  
'cause it's just another day.

And now that I can see, why don't you come with me  
'cause it's just another day.

And now that I can see, why don't you come with me  
'cause it's just another day.
