

# U Are The One

## Usher

U S H E R, say it  
U S H E R, c'mon, c'mon, one, two, check it  
It was like six of us, three in the Benz, three in the truck  
On 85 headed to the Plush, ten minutes later when we pulled up  
I parked the Benz, hit the alarm, glanced down at my rims  
Tucked my pant leg in the tongue of my Tims  
Hand in my shirt to reveal the gems  
Proceeded to walk in, just then I saw this  
Magnificent misses, sippin' on a glass of Cris  
With a couple of her friends gigglin' I knew  
U R the one, I don't give a damn  
Even if you got a man take my hand, girl  
U R the one, girl I know you'll understand  
If you just give me a dance, take a chance, girl  
Said, I know you got a few with you  
Don't even trip I got my crew here too  
Keep it real what you wanna do  
I really wanna chill with you  
Tell your friends they can hop in the truck, we'll take the Benz  
But if we split up maybe we can hook up again  
You never know I guess that all depends  
If I can get you from the floor to the door of my six O O  
Two O momo's on low Pro's  
So finish that Mo'  
Get your coat  
Tell your girls c'mon let's go, 'cause  
U R the one, I don't give a damn  
  
Even if you got a man take my hand, girl  
U R the one, girl I know you'll understand  
If you just give me a dance, take a chance, girl  
U R the one, I don't give a damn  
Even if you got a man take my hand, girl  
U R the one, girl I know you'll understand  
If you just give me a dance, take a chance, girl  
U S H E R, say it  
U S H E R, one, two, three  
U R the one, I don't give a damn  
Even if you got a man take my hand, girl

U R the one, girl I know you'll understand  
If you just give me a dance, take a chance, girl  
U R the one, I don't give a damn  
Even if you got a man take my hand, girl  
U R the one, girl I know you'll understand  
If you just give me a dance, take a chance, girl  
U R the one, I don't give a damn  
Even if you got a man take my hand, girl  
U R the one, girl I know you'll understand  
If you just give me a dance, take a chance, girl  
U S H E R, say it  
U S H E R, one, two, three  
U S H E R, say it  
U S H E R, one, two, three
