Beauty Queen

Ben's Brother

Eve and Adam's only child
Body that goes on for miles
Heaven only knows that real
Can be better than the fantasyAnd her eyes shouldn't have blurred my vision
I know that she, sheWas a beauty queen
And if you are gonna cry, don't cry for me
'Cause from here on the ground, the truth I have found
Is we all fall down, yes, we all fall downSidney told me something once
When he came and sat down next to me
He said, "Beware of the beautiful ones
Because they never let you rest in peace"But her eyes shouldn't have blurred my vision
I know that she, oh sheWas a beauty queen
And if you are gonna cry, don't cry for me
'Cause from here on the ground, the truth I have found
Is we all fall down, yes, we all fall downTaken in by the sweetest sin
Milk and honey tasting skin
Is why she always winsShe's a beauty queen
And if you were gonna cry, don't cry for me
'Cause from here on the ground, the truth I have found
Is we all fall down, yes, we all fall down
Yes, we all fall down, we can all fall down
