

It's Over

Cinema Bizarre

Don't go wastin' time on somethin' else
If you lose me now, I'll lose myself
Hey it's just you and me now
Hey it's just you and me now
You are circulating in my system
Takin' over my transmission
Circulating in my system
Destroying me and all my visions
I still have these pictures of you here
How can all I feel turn into fear
Hey it's just you and me now
I said hey it's just you and me now

You are circulating in my system
Takin' over my transmission
Circulating in my symstem
Destroying me and all my visions
Over over over
It's all over over over
It's all over over over
It's all over over over
You left me alone
You left me alone
You left me alone
You left me alone
