

# Closer to You

## The Coronas

My love, how does it know?  
How the hell is she home?  
Oh my god, she's home

You had me long before you could know  
The back of my mind I couldn't get you to go  
And as our conversation came to an end  
I found myself closer to you again  
Closer to you

I'm not sure where I stand  
The best nights can't be planned

You had me long before you could know  
The back of my mind I couldn't get you to go  
And as our conversation came to an end  
I found myself closer to you again

Several signs had led me to this place  
Don't fancy my chances if it's left to fate  
Something told me to take that chance  
The whiskey may have had something to do with that  
And a girl outta nowhere appeared  
She told me to kiss you and then disappeared  
And the music it started to end  
I found myself closer to you again  
Closer to you  
Closer to you

You had me long before you could know  
The back of my mind I couldn't get you to go  
And as our conversation came to an end  
I found myself closer to you again  
Closer to you
