Sixty Days

The Soviettes

So your looking at sixty days. Should be time enough to find. Get the paper on Saturday. Looking through it til your blind. Get ready for the the runaround. You can call and call and call. Get set for the runaround. Feel like no one's on your side. What a waste of time! Sick of living in uptown so decided on St. Paul. But with everything going on see your standards set to fall. Get ready for the runaround. Feel like no one's on your side. What a waste of time!
