All Grown Up

Appleton

On the dark side of my life
It won't shine cause there's no light
But I got my own surprise
Shut your eyes and hold me tightThere's no room for making noise
There's just room for us and toys
So don't be scared when the lights go out
Let me show you what I'm all aboutYou won't fall back on your own
Here I come, you're not alone
My, oh, my, oh, haven't you grown?Let's not be polite tonight
Let me feed your appetite
Playing games from way back when
I was nine and you were tenAll grown up now that's the past
We can play for real at last
So relax and let it flow
Let me see how far you'll goYou won't fall back on your own
Here I come, you're not alone
My, oh, my, oh, haven't you grown?
You grown, you grownAll grown up now that's the past
We can play for real at last
So relax and let it flow
Let me see how far you'll goYou won't fall back on your own
Here I come, you're not alone
My, oh, my, oh, haven't you grown?
You grownHaven't you grown?
On your own, you're on your own
Haven't you grown?
On your own, you're on your ownHaven't you grown?
On your own, on your own
Haven't you grown?
On your own, on your ownHaven't you grown?
