

# Money On You

Chris Blue

Can we get a little up close and personal  
Somewhere alone, Somewhere alone  
Ain't nobody else in my peripheral  
You got it all, You got it all I've got a feeling, we could could be golden  
Yeah we got nothing to lose My Money's on you for the rest of the night  
You could be the highlight  
Come bet on me too if you want a good time  
I could be the highlight  
My money's on you, you  
Fire couldn't make sweat the way you do  
You dangerous, you and yo bad self  
Thunder couldn't shake this bed like me and you  
Ain't hard to tell, you do it well I've got a feeling, we could could be golden  
Yeah we got nothing to lose My money's on you for the rest of the night  
You could be the highlight  
Come bet on me too if you want a good time  
I could be the highlight  
My money's on you, you  
My money's on you, you Hey baby, you could be the highlight  
Hey baby, you could be the highlight  
Hey baby, you could be the highlight, highlight  
My money's on you for the rest of the night  
You could be the highlight  
Come bet on me too if you want a good time  
I could be the highlight  
My money's on you, you  
My money's on you, you
