

# Lonesome

## Brady Allen

in here before  
windows and stone  
through the pane  
and longing for sure  
my lover has gone  
this is her song  
oh lonesome don't make this your home

wrestle with news  
law for the view  
despective  
on what we've been thorugh  
right or wrong  
this is her song  
oh lonesome don't make here your home

I gave you away  
resurrection day  
the future not found it in you  
right or wrong this is her song  
oh lonesome this is not your home
