

Roll In the Dirt (of My Youth)

Vonda Shepard

I have built, built more bridges than I've burned, than I've burned
And I have helped, helped more people, than I've hurt, than I've hurt
But in my life, I'm still humbled by how little I have learned You killed me baby, without pulling a trigger
You sold me darling, down the long and winding river I have spent my lifetime seeking the truth
But I just wanna roll in the dirt of my youth I have begged, begged forgiveness from a friend, from a friend
He doesn't feel, feel the urgency for our struggle, oh for it to end You knocked me over, with a touch of a feather
You dragged me darling, through some treacherous weather Oh darling when I'm feeling hurt
I just wanna roll in the dirt
I have spent my lifetime seeking the truth
But I just wanna roll in the dirt of my youth You killed me baby, without pulling a trigger
You sold me darling, down the long and winding river Oh darling when I'm feeling hurt
I just wanna roll in the dirt
I have spent my lifetime seeking the truth
But I just wanna roll in the dirt of my youth I just wanna roll oh...
