You Belong to No One

Edith Frost

You'll be lonely with your lover
You belong to no one
You'll be lonely by yourself
You belong to no oneYou can be happy with someone who loves you
You can be lonely with someone you trust
You can't just tell your heart where it should go
'cause darlin' you know
You'll only be given the tiniest chance
And it won't come back anymoreYou'll be lonely when you're hollow
You belong to no one
You'll be lonely when you're dry
You belong to no oneWhether or not you've got someone who loves you
You can be lonely with someone you trust
You can't just tell your heart where it should go
'cause darlin' you know
There's only the tiniest chance
And you'll always be lonely
You'll always be lonely
You'll always be lonely
You'll always be lonely
You'll always be lonely
