Attention

Adelphi

Somebody stop me,
Somebody stop him please.
Night skies, brake lights,
Conversation cuts ties.Somebody stop him,
Somebody stop me please.
Everything everyone never saidSo call this a lesson that's worth being learned,
Is this the attention you deserve?Somebody break him,
Somebody break me please.
Don't wait, too late,
Please move on with your life.Heart punched with stars,
Sky filled with emptiness.
Everything you never saidSo call this a lesson that's worth being learned,
Is this the attention you deserve?I tried these lines one too many times [x9]So call this a lesson that's worth being learned,
Is this the attention you deserve?
(I tried these lines one too many times)
