

Sleep This Away

Cancer Bats

Cold as I am
I'm just doing my best
The best that I can
I'm just needing some rest
The rest that I know I've needed much too much Can you help me?
Pulling me down
Save my soul
Pulling me down and drag me down
I can't take this hurt Oh and I'm so tired, oh and I'm so tired Suffered this far
Might as well just suffer some more
The more that I take
You know the further I'll fall
Eyes to the sky - I've got my eyes to the sky
One last day so I can live with the night Can you help me?
Pull me down
Save my soul
Pull me down, down, down
It's dragging me down, down, down
I can't take this hurt Oh and I'm so tired - Oh and I'm so tired
Oh and I'm so tired - One of these days
Oh and I'm so tired - Sleep this away
One of these days - Sleep this away
One of these days - Sleep this away
I'll sleep, I'll sleep this away
I'll sleep, I'll sleep this away
I'll sleep, I'll sleep this away
