

Trainsong

[Andrea von Kampen](#)

I hear the train a'commin
and I smell the smokey air
Some day you'll be on that train travelin home soon a'sittin right there
The letters are nice but they aren't the same
It's you that I want to see
And I know someday I will wake up and you'll be next to me.

Hold on close I'm not that far
Close your eyes and I am right there
And I wonder where you are and if you know you'll always be
in my prayer

The train comes everyday and I wait here alone
One day I'll be on that train and finally you'll be home.

Hold on close I'm not that far
Close your eyes and I am right there
And I wonder where you are and if you know you'll always be
in my prayer
