

All the Young Heroes

Gary O'

It's a place to know
where the young hearts go,
where time can remove the day.
They're coming from the night to feel the smoke and lights
for the ones who have come to play.
It's a restless crowd they like it fast and loud
and they know that they'll have their way.

Oh to live like a legend remember the name,
come to be like the ones with the fortune and the fame,
this rock and roll life is a young man's game.

All the young heroes
All the young heroes
All the young heroes
All the young heroes

Though you paid a lot for the freedom you got
there's a world that you left behind.
Only time will tell but if it works out well
You'd give your soul to be there in line.

Oh to live like a legend remember the name,
come to be like the ones with the fortune and the fame,
this rock and roll life is a young man's game.

All the young heroes
All the young heroes
All the young heroes
All the young heroes

Are you faster than me?
Are you living the dream?
Got to keep up the fight to the heat of the night.
You belong to them now you see.

All the young heroes
All the young heroes
All the young heroes
All the young heroes

All the young heroes

All the young heroes
All the young heroes
All the young heroes

All the young heroes
All the young heroes
All the young heroes
All the young heroes
