

# Chestnut

## When Saints Go Machine

Easy to call  
By the chestnut in the window still  
So easy to call  
Empty at the space we're in  
Where does night take us then  
No words of mine apply the exchange  
Pin just dropped  
Silence talk  
No time to explain  
I'm on off into headlights  
Violently my knees caved  
All i ever wanted was another day  
All i ever needed was a sign  
Who was I to tell  
Didn't like the future anyway  
All i ever needed was a sign  
All i ever needed was a signSomewhere in the city  
Scheming on last escape  
Crayons draw a house of four  
Feet upon my father's grave  
Where do days leave us then  
A passenger of all we've made  
I was lit like fireworks  
On fire and no one to put it out  
Standing straight I went down  
Violence went and tears came  
All i ever wanted was another day  
All i ever needed was a sign  
Who was I to tell  
Didn't like the future anyway  
All i ever needed was a sign  
All i ever needed was a sign
