

# Friendship Station

## Le Tigre

The phone keeps ringing and it just won't stop  
There's a paper napkin in my coffeepot  
People freaking out on me left and right  
My head feels heavy but my feet feel light  
The clock keeps ticking inside my head  
Bad news is all I ever get  
The check I've been waiting for is not on time  
Everyone around me wants to start another fight  
I'm gonna let it be alright  
I'm gonna let it be alright  
Alright I wanna be there  
I wanna take you there  
I wanna be there  
I wanna take you there I wanna be there  
I wanna take you there  
I wanna be there  
I wanna take you there I wanna be there  
I wanna take you there  
I wanna be there  
I wanna take you there I wanna be there  
I wanna take you there  
I wanna be there, I wanna be there  
I wanna take you there I wanna be there  
I wanna take you there  
I wanna be there  
I wanna take you there I wanna be there  
I wanna take you there  
I wanna be there  
I wanna take you there I wanna be there  
I wanna take you there  
I wanna be there  
I wanna take you there I wanna be there  
I wanna take you there  
I wanna be there  
I wanna take you there
