Night Swimmers (Mura Masa Edit)

Foals

[Verse 1]
Another hot summer's day
And only we know the way
To the cool blue lagoon
Where we sleep until noon[Verse 2]
The city is all ablaze
With blue notes and haze
We hit the open wide roads
We snuck the moon in clothes[Chorus]
Get up again x3[Verse 3]
We swim under the moon
In the cool blue lagoon
You count up all my scars
Crumble them into stars
You're such a perfect mess
You and your dirty white dress
And the day I came to[Chorus][Verse 4]
The perfect blue evening
We sit and drink and we sip
Smoke flowers rising high
Under the flaming sky
