Record Stop

Choke

record stop
stop skipping
not equipped to stor this ear full
blocking signalrecord stop
stop skipping
leads to subconscious downplay
not equipped to store this blocked signalthere's not much reason for you to see this through
i know it's too much for you to shoulder
erase my work
deface my words
this is the last time that you willrecord stop
stop skipping
a step up from what i will live for
