

# All I Can Do Is Love You

**Collin Raye**

It's simple, so easy  
Somethin' 'bout your gentle way that frees me  
I feel it, all I can do is love you This one thing I'm sure of  
Nothin' sweeter in this world than your love  
I'm certain all I can do is love you All of my dreams are yours  
Those distant shores of love at last have found me  
Best way I can explain is there's hope again  
And you're the light surrounding me My lifetime I'll prove it  
'Cause baby when it gets right down to it  
I can't help it all I can do is love you
