Break Free

Like a Storm

Help me
I've fallen further in myself
I'm stuck here again
And I can see
That I'm not digging my way out
I'm digging my graveI've become my own demise
Paralyzed inside my mind
Arms are weak for holding up this front
No escape and no surprises
Complicated compromises
Hold me down
When all I really want is just toBreak free [x2]
Break free from everything
Break free before it breaks me
There's got to be another way
To start againTell me
How you can be the brightest star
And light up the sky
When I can't seem
To even light up my own way
And I'm burnt out for tryingI've become what I despise
Paralyzed inside a lie
Arms are weak for holding back the flood
Sinking as the waters rise
Drink myself to sleep each night
I'm going under
And all I really want is just toBreak free [x2]
Break free from everything
Break free before it breaks me
There's got to be another way
To start againNo!
I'm going under
When all I really want is just to
Break freeBreak free before it breaks me
There's got to be another way
To start again [x3]
There's got to be another way(Start again) [x4]
