Lightyears

Heroes & Zeros

Time is up my dear,
the sleep can never be too long.
The night isn't good to the likes of us.You're lightyears away.
You're lightyears away.
I miss calling home.You're lightyears away.
You're lightyears away.
I miss calling home.I hope you dream
like never before.
Leave your worries behind,
I'll raise a roar.You're lightyears away.
You're lightyears away.
I miss calling home.You're lightyears away.
You're lightyears away.
I miss calling home.I'm not afraid anymore of the sun,
we said our byes at the break of dawn.You're lightyears away.
You're lightyears away.
I miss calling home.You're lightyears away.
You're lightyears away.
I miss calling home.
