

Be Careful

Patty Griffin

All the girls in the Paris night
All the girls in the pale moonlight
All the girls with the shopping bags
All the girls with the washing ragsAll the girls on the telephones
All the girls standing all alone
All the girls sitting on the wire
One by one fly into the fireBe careful how you bend me
Be careful where you send me
Careful how you end me
Be careful with meAll the girls standing by your beds
All the girls standing on their heads
All the girls with the broken arms
All the girls with the deadly charmsAll the girls in the restaurant
Pretending to be nonchalant
Funny girls on the TV shows
Close your eyes and they turn to snowBe careful how you bend me
Be careful where you send me
Careful how you end me
Be careful with meAll the girls working overtime
Telling you everything is fine
All the girls in the beauty shops
Girls' tongues catching the raindropsAll the girls that you'll never see
Forever a mystery
All the girls with their secret ways
All the girls who have gone astrayBe careful how you bend me
Be careful where you send me
Careful how you end me
Be careful with meBe careful how you bend me
Be careful with me
