

# Battlefield Of Love

[Lenny Kravitz](#)

I am a soldier, a casualty of love  
I've been from heaven, all the way to hell  
I've had a journey much more than I can tell  
I've got stories much more than I can sell All this mass confusion causes chaos in my brain  
I'm on the battlefield, the battlefield of love  
With all of the illusions, I won't ever be the same  
I'm on the battlefield, the battlefield of love I'm a prisoner, a prisoner of love  
I have been captured and kept underground  
I have been tortured but I don't make a sound  
'Cause I know one day one day I will be found All this mass confusion causes chaos in my brain  
I'm on the battlefield, the battlefield of love  
With all of the illusions, I won't ever be the same  
I'm on the battlefield, the battlefield of love All this mass confusion causes chaos in my brain  
I'm on the battlefield, the battlefield of love  
With all of the illusions, I won't ever be the same  
I'm on the battlefield, the battlefield of love I'm on the battlefield, the battlefield of love  
I'm on the battlefield, the battlefield of love  
I'm on the battlefield, the battlefield of love  
The battlefield of love, the battlefield of love  
The battlefield of love, the battlefield of love
