

# Tongue

## Bell X1

This one's for you  
This one's for me  
This one's for you  
This one's for me I've got a nervous feeling over you  
But who am I fooling  
I like airline food, I need to feel whole  
I need to feel young again, I need to be bold And start using my tongue again  
They can laugh as they cry  
They can cut till I bleed  
But I ain't losing 'cos this one's for me
