

Heart Stand Still

Shannon McArthur

Oh you saw, the way you caught my eye first time i saw you at all, should i leave or even try, you're waiting on
another call, from some other guy, that kid puts up a front, but i can give you something that your gonna want, I
can love you, love you, love you, and i always will,
you make my heart stand still, like a quiet summer night, my heart stands still, like a deer in the headlights, my
heart stands still, pretty legs walk in the room, it's such a thrill, you make my heart stand still, you make my
heart stand still
eyes, they met, i panicked but i made the best and waved with my left, your smile put my heart to rest, but still I
wonder what is on your mind, my heart is a take-a-penny dish, to get some love, you gotta put some in, I love
you, love you, love you, and I always will
you make my heart stand still, like a quiet summer night, my heart stands still, like a deer in the headlights, my
heart stands still, pretty legs walk in the room, it's such a thrill, you make my heart stand still, you make my
heart stand still
never been the type to get caught up, on one girl but this time it's different, every single time that your name
comes up, you know i gotta listen to the story, for good, for good or ill, you make my heart stand still
you make my heart stand still, like a quiet summer night, my heart stands still, like a deer in the headlights, my
heart stands still, pretty legs walk in the room, it's such a thrill, you make my heart stand still, you make my
heart stand still
