Afi

When you sink into me
Just give me your hands and I'll let you feel the wounds
They believe in me
If you believe in me how can I be dissolving?
If you'd believe me I'd tell you everything
Do you fall too as I fall?
(Every time that I, every time that I)
Do you want to fall into me?
(Try to pacify)
(Fall into me, fall into me)
Into me
Parents can you hear me?
Press me to your lips and I'll suck the poison out
Who will heal me? Me
If you keep killing me
How can I keep absolving your sins into me?
Begin the poisoning
Do you fall too as I fall?
(Every time that I, every time that I)
Do you want to fall into me?
(Try to pacify)
(Fall into me, fall into me)
Into me
Time, time, time
We're not waiting
Time, time, time
We're no one
(Unknown, unknown)
Do you fall too as I fall?
(Every time that I, every time that I)
Do you want to fall into me?
(Try to pacify)
(Fall into me, fall into me)
Into me
Do you fall too as I fall?
(Every time that I, every time that I)
Do you want to fall into me?
(Try to pacify)
(Fall into me, fall into me)

Into me

We are no one, we are no one
We are no one, we are no one, we are
We are no one, we are no one
We are no one, we are no one, we are
We are no one, we are no one
We are no one, we are no one, we are
We are no one, we are no one
We are no one, we are no one, we are
We are no one, we are no one
We are no one, we are no one, we are
