

Outta This World

JLS

Houston
We got a problem
Said, I'm calling Houston
We got a problem Hey, baby out of space or a far off place
She's in front of me, I'm standing still
Feels like magic and she has it on me
I'm frozen, almost ill This love of another kind
So out there, it blew my mind
This love of another kind
I can never find, never find it She's got me in a trance
The way that baby dance
And I just wanna hold her body close The look that's in her eyes
It's got me mesmerized
And where she's coming from
Nobody knows She's outta this world
She's outta this world
She's outta this world, world, world
She's outta this world Now she's taking me to a galaxy
And I can't believe I'm touching her
And she has me where there is no gravity
And I'm floating up off this earth This love of another kind
So out there, it blew my mind
This love of another kind
I can never find, never find it She's got me in a trance
The way that baby dance
And I just wanna hold her body close The look that's in her eyes
It's got me mesmerized
And where she's coming from
Nobody knows She's outta this world
She's outta this world
She's outta this world, world, world
She's outta this world London, Paris, L.A., Chicago
Venus, Mars or Saturn or Pluto
Neptune, N.Y. Jupiter, Toronto
Where you from, girl?
Where you from, girl? London Paris L.A. Chicago
Venus, Mars or Saturn or Pluto
Neptune, N.Y. Jupiter, Toronto
Where you from girl?

Where you from girl?Where you from girl?
Where you from girl?
Where you from girl?
Where you from girl?She's got me in a trance
The way that baby dance
And I just wanna hold her body closeThe look that's in her eyes
It's got me mesmerized
And where she's coming from
Nobody knowsShe's outta this world
She's outta this world
She's outta this world, world, world
She's outta this worldShe's outta this world
(Tell me where you from?)
She's outta this world
(Venus, Mars or the sun?)
She's outta this world, world, world
She's outta this worldShe's outta this world
