

Where You Are

Mansions on the Moon

I only knew you for a moment
yet i can't forget your face
I only knew you for a summer
yet I think of you each day I wonder where you are now
and if you ever think of me
I wonder where I am now
and where I ought to be I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are I only knew you for a moment
yet i can't forget your face
I only knew you for a summer
yet I think of you each day I wonder where you are now
and if you ever think of me
I wonder where I am now
and where I ought to be I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
I only wanna be where you are
