Ready Or Not

Evan And Jaron

Down down down shiki tiki down down down
Down down down tiki tiki down down down
Down down down tiki tiki down down down
Down down down tiki tiki down down down
There was nothing down in my little town
No one I could be
Nobody there in the empty square
Soon to include me
So I borrowed myself a stolen van
And I got myself to where I am
I made my escape while no one watched
And inside my head I had just one thought
It was freedom that I wanted
Freedom that I got
Ready or not
Down down down shiki tiki down down down
Down down down tiki tiki down down down
Down down down tiki tiki down down down
Down down down tiki tiki down down down
It's another world I find me in
I think someone stole the van
And the people here are like aliens
And I don't know what I am
And the pretty pretty girls I thought I could trust
Have taken everything but my bad luck
Now I'm not so bad and I'm not so hot
I said I don't care but I cared a lot
It was changes that I wanted
Changes that I got
Ready or not
Ready or not
Ready or not
Ready or not
Now I'm not so radical as I thought
I said I don't care but I cared a lot
It was freedom that I wanted
Freedom that I got
Ready or not
(Ready or not)

(Ready or not)
Down down down shiki tiki down down down
Down down down tiki tiki down down down
Down down down tiki tiki down down down
Down down down tiki tiki down down down
