Consider Us

Candlebox

Consider us, the long lonely road
Defenders of the brittlest of bones
The dressers of the prettiest of clothes
Our time is gonna come but we'll have nowhere to goWhat do we see before we die, is it beautiful?
And what do we say to make you cry, is it wonderful?
And what do I sing to save your life, is it magical?
Baby, how would you feel if we were lying?Remember us, we were the last ones on your mind
Escapers from the erased and denied
The rest is up to you sinners we've aligned
Our time is on the run and it's left us to decideWhat do we see before we die, is it beautiful?
What do we say to make you cry, is it wonderful?
And what do I sing to save your life, is it magical?
Baby, how would you feel if we were lying?Ooh, ooh
What do we see? What do we see, yeah?
What do we see? What do we see, yeah?
What do we see before we die?What do we see before we die, is it beautiful?
What do we say to make you cry, is it wonderful?
And what do I sing to save your life, is it magical?
Baby, how would you feel if we were lying?And how would you feel if we were lying?
How would you feel if we were lying?
Lying, lying
