No Home

Nico Vega

And when you started this
Disrespecting yourself
And then you want to go homeAnd when there's no hope
And there's no one who knows you
You're always alone
And its picking a tour on
And then you want to go homeAnd there's no home
You got to fight for what you love
In your homeAnd when you realize there's no one to guide you
You often give in to temptations
Sometimes you're lost in hopes in making a homeSo let me remind you
That this ain't your time
And you'll lose what you like
And your gift is after
And you know you can make a new homeAnd there's no home
You got to fight for what you love
In your homeAnd there's no home
You got to fight for what you love
In your homeIf you love me
I will let you leave with me
If you love me
I will let you leave with meI will be your home
I will be your home
I will be your home
I will be your homeSo if you love me
I will let you leave with me
If you love me
I will let you leave with me
I need your home
