

How It Is (feat. Debra Fotheringham)

Kaskade

I know not why
I know not how
How it is
Yeah, it is No mystery solved
Equation found
To explain
This feeling inside I feel it now
I feel for you
So immense,
The soul breaks through
So simple yet
Something rare
So intense
My heart
You can hear its sound All this time
You and I
So afraid
So we'd hide
Yet here we are
Here we are
Can't explain
No need to anymore I feel it now
I feel for you
So immense,
The soul breaks through
So simple yet
Something rare
So intense
My heart
You can hear its sound You can hear its sound
