

Running Hot

Here Come the Mummies

Catch me if you can and tame the beast
Should I leave you burning in the heat
 Kick the throttle down, I'm on fire

It turns me on to feel the engine's beatTake it to the highway on the open road

 I want to feel your power
 Screaming into overload

She's running hot, she's hotComing out of nowhere, moving fast
 I gotta keep the feeling
 Make it last, met me feel your body

I'll explode, together we will run to overloadTake it to the highway on the open road

 I want to feel your power
 Screaming into overload
 She's running hot, she's hot
