

Young Hearted Kids

Stuck in your radio

Remembering highschool
The Clicks, The Teach, The Crew
The Struggles there inside me
Now soon this will be part of you!It's Simple, OK
You'll live another day
This is another phase
That soon will meet it's endREADY, SET, GO!
Wish the time would go slow
I was so naive, too young to believe
Not ready to let go!
Of all the moments that made us
Young Hearted Kids
Young Hearted KidsThe Time collected in me
A code I pass to you
The world will just get harder
So now enjoy all of your youthIt's Simple , OK
You'll fight another day
Snow, rain, and all work days
They seem to have no endREADY, SET, GO!
Wish the time would go slow
I was so naive, too young to believe
Not ready to let go!
Of all the moments that made us
Young Hearted Kids Young Hearted Kids!READY, SET, GO!
Wish the time would go slow
I was so naive, too young to believe
Not ready to let go...READY, SET, GO!
Wish the time would go slow
I was so naive, too young to believe
Not ready to let go!
Of all the moments that made us
READY, SET, GO!
Wish the time would go slow
I was so naive, too young to believe
Not ready to let go!
Of all the moments that made us
READY, SET, GO!
Wish the time would go slow
I was so naive, too young to believe

Not ready to let go!
Of all the moments that made us
Young Hearted Kids Young Hearted Kids!
