Running For Cover

Noah Gundersen

Spent the best of my life running scared
in the city
left my shoes and my clothes and
my lovers behind, yeah
oh but I felt incomplete
living out there in the street
I was always alone and afraid
such a pity
little girls just don't know what comes
out after dark
but the devil wasn't in here
down on that dead end street
And I say
running for cover
running for cover
running for cover
It's take keeping me running
I'm just scared that he's out tonight
it's keeping me running
I don't know why, but its getting dark
say the devil's in the park
and its already after dark
running for cover
running for cover
running for cover, now
Life is really so hard when you live in the city
no one know what a young girl
has on her mind, yeah
but you're headed for defect
down on that dead end street
Never learned of the lesson

you should, such a pity
Still and all you'll stay away
the others behind
and the promise in the dark
is that the devil's in the park
And I say
running for cover

running for cover
running for cover
It's take keeping me running
I'm just scared that he's out tonight
it's keeping me running
I don't know why, but its getting dark
say the devil's in the park
and its already after dark
running for cover
running for cover
running for cover
Spent the best of my life running scared
in the city
left my shoes and my clothes and
my lovers behind, yeah
oh but I felt incomplete
living out there in the street
running for cover
running for cover
running for cover
It's take keeping me running
I'm just scared that he's out tonight
it's keeping me running
I don't know why, but its getting dark
say the devil's in the park
and its already after dark
