

# Get It On The Floor

Mac Miller

Let's get it on  
We don't give a what, what  
We don't give a what, what  
Get it on the floor  
Get it, get it on the floor  
Get it on the floor  
Get it, get it on the floor  
You don't wanna party then your ass gotta go  
You don't wanna party then your ass gotta go  
Now you can ride to this motherfucker  
Bounce to this motherfucker  
Freak to this motherfucker  
Let's get it on  
Get it on the floor  
Get it, get it on the floor  
Get it on the floor  
Get it, get it on the floor  
Once again it's the darker nigga, hit or spark a nigga  
Break apart a nigga but the dog is bigger, under stress  
So unless you're wanting to bless to the chest  
These slugs from his liver rest, rest  
Or the pump'll put a hurt on a nigga  
Dumd sex, motherfucker feeding dirt on a nigga  
My hands stay dirty, 'cause I play dirty the mob way  
You don't know? Fuck it find out the hard way  
A nigga's job is never done, I handle my business how it come  
And there's never been a one on one  
Nor has there been a problem, I dissolve them  
I'm like salt, lock it up, hate to fall but never wreck his car  
And it's my fault, keep niggaz on point ducking down  
Niggaz like you need to get bust you fucking clown  
I extort to support my peeps  
And hold down the fort, never get caught 'cause I creeps, nigga  
Get it on the floor  
Get it, get it on the floor  
Get it on the floor  
Get it, get it on the floor  
You don't wanna party then your ass gotta go  
You don't wanna party then your ass gotta go

Now you can ride to this motherfucker  
Bounce to this motherfucker  
Freak to this motherfucker  
Let's get it on  
Get it on the floor  
Get it, get it on the floor  
Get it on the floor  
Get it, get it on the floor  
I'm at the crossroads, look but I'm not really sure which way to go  
Should I play that low for what I did the other day  
They on their way to float, got me striking this random  
I can't stand 'em, fake ass niggaz want to be the Phantom  
Looking over my shoulder, 'cause it's colder than it was  
And start shorty, because I'm a little older than 'cause  
And the buzz from the saw, with the chain to your brain  
Will turn that BIG NIGGA to a fucking stain  
That pain from the dirt makes the hurt go away for a minute  
But I'm gon' die by it 'cause I'm like knee deep in it  
And you motherfuckers wonder why I start shit  
'Cause when you look in my face you see that hard shit  
'Cause I done been to hell and back I ain't wit selling crack  
I'd rather rob a nigga leave him wit' a shell up in his back  
On the real just to show proof, hit the G.W.B.  
And blow the whole roof off the toll booth bitch ass nigga  
Get it on the floor  
Get it, get it on the floor  
Get it on the floor  
Get it, get it on the floor  
You don't wanna party then your ass gotta go  
You don't wanna party then your ass gotta go  
Now you can ride to this motherfucker  
Bounce to this motherfucker  
Freak to this motherfucker  
Let's get it on  
Get it on the floor  
Get it, get it on the floor  
Get it on the floor  
Get it, get it on the floor  
When I crawl, leave a nigga sprawled out after I spoke 'em  
I'll slit his throat, dick in the mud and let his blood choke 'em  
Up north niggaz get the pick stuck up in 'em  
And in the streets bitches get the dick stuck up in 'em  
My M.O. is man-slaughter kid  
'Cause on the reals I done wet up more motherfuckers than water did  
Slid, 'cause I got to slide when the dirt is done

A homicide but they want me on the Murder 1  
But as long as I got my gun, I'm aight  
Stay outta sight while it's light, and then come out at night  
To make moves again, stomp and bruise again  
I know I'm going to hell 'cause I choose to sin  
All my motherfucking life I been the devil's advocate  
Now niggaz never even knew the devil had a kid  
But he does and when you hear the buzz of the chainsaw  
You'll know what I'll split your motherfucking brains for  
Get it on the floor  
Get it, get it on the floor  
Get it on the floor  
Get it, get it on the floor  
You don't wanna party then your ass gotta go  
You don't wanna party then your ass gotta go  
Now you can ride to this motherfucker  
Bounce to this motherfucker  
Freak to this motherfucker  
Let's get it on  
Get it on the floor  
Get it, get it on the floor  
Get it on the floor  
Get it, get it on the floor  
Don't start nothin', it won't be nothin'  
Don't start nothin', it won't be nothin'  
You wanna start somethin' it's gon' be somethin'  
You wanna start somethin', it's gon be somethin'  
Don't start nothin', it won't be nothin'  
Don't start nothin', it won't be nothin'  
You wanna start somethin', it's gon be somethin'  
You wanna start somethin', it's gon be somethin'  
Yo yo, c'mon
