

# When the Angels Cry

## Allure of Souls

Come to me out from the shadows  
Lay with me stay like a lover  
I can see everything that you are

Take my hand in the silence  
Break my heart, a perfect moment  
Touch my soul  
Here in the dance that lasts forever

When the angels cry  
(lamentariunt angeli)  
How we live and die  
(cum et vivemus morimus)  
When the angles cry  
(lamentariunt angeli)  
Tears burn from the sky

See your eyes so full of sadness  
Hear your voice rise from the darkness  
I can feel everything that you are

When the angels cry  
(lamentariunt angeli)  
How we live and die  
(cum et vivemus morimus)  
When the angles cry  
(lamentariunt angeli)  
The tears burn from the sky

When the angels cry  
(lamentariunt angeli)  
How we live and die  
(cum et vivemus morimus)  
When the angles cry  
(lamentariunt angeli)  
Tears burn from the sky

Ego vinctus in vigour amori  
Ego vinctus in vigour amori  
Ego vinctus in vigour amori

Ego vinctus in vigour amori

Ego vinctus in vigour amori
