

# Flight

## Bahwee

You  
Eh why you looking at me  
You got something to hide  
I got something to see  
Stay  
Right where you stand  
And then when I say go  
You gonna take what you can  
Look at the things you've done  
At the things you've done  
At the things that you've done  
We're on fire  
Stand and fight  
We could be in flight  
You  
You mean nothing to me  
Can I feed you a lie  
For a pledge to be free

Take  
And then make what you can  
Quit choosing a side  
Stay right where you stand  
Wait before you let it go on  
Before you let it go on  
Before you let it go on  
We're on fire  
Stand and fight  
We could be in flight  
We'll burn it down...  
We're on fire  
Stand and fight  
We could be in flight  
Lost and tired  
Read our rights  
We could be in flight
