

Mary Jane

Cypress Hill

Look who's back on the program
Hookin up another fly joint when I flow on the slow jam.
When I shift I kick to go
Like I fat drunk and I light up a fat spliff.
Take a wiff can you smell that in the air
When the smoke come out the building from every where.
Shit I still get down so just sit down
When my thoughts stops crawling
Time to sit down with
Yet I go wrong you got to hit my bong
Later on then i4ll be getting high all alone
You got a friend named mary jane
And she make me feel stange,
Now I've got to call out her name.Can I call mari juanna
If you wanna party
Wiile shit I'm gonna as soon as she comes out
Round to my neighborhood
Damm and she alwyas smells good
Let me make this understood
Are you expirienced
Have you ever been experienced
Not for the life..... make you delerious
Why is the room spinnin
I can't stop now
I've must have been drinking
Cause this ain't pot
That's doing me like this
I feel ill now I'm calling out to mary
Cause I just can't deal .
