

Chillin' in the Summertime

Jonas Brothers

It was a beautiful day
I threw my worries away
It's 'nothing' new, just the same old same
So Imma start a new phase I turned the radio on
And it's my favorite song
It's so good to sing along
It feels so right, this can't be wrong I just want a good time Oh-wow
I don't wanna fuss and fight Noo
Life's too short to waste time Oh-no
Every little thing's gonna be alright 'Cause we're chillin' in the summer time
Not a cloud in the sky
Everybody's feelin' fine
And everything will be alright 'Cause we're soaking up the sweet sunshine
Not a worry on my mind
Everybody's feelin' fine
And everything will be alright There's a party tonight
Where the moon shines bright
Bring your friends and I'll bring mine
It feels so good to be alive And when the night is through
Baby girl it's just me and you
There's noly one thing left to do and
That's play this song for you 'cause I just want a good time Oh-wow
I don't wanna fuss and fight Noo
Life's too short to waste time Oh-no
Every little thing's gonna be alright 'Cause we're chillin' in the summer time
Not a cloud in the sky
Everybody's feelin' fine
And everything will be alright 'Cause we're soaking up the sweet sunshine
Not a worry on my mind
Everybody's feelin' fine
And everything will be alright And in the morning we're gonna rise
Trials and tribulations pass us by
So don't you worry love is waitin' on the other side
Every little thing's gonna be alright 'Cause we're chillin' in the summer time
Not a cloud in the sky
Everybody's feelin' fine
And everything will be alright 'Cause we're soakin' up the sweet sunshine
Not a worry on my mind
Everybody's feelin' fine

And everthing will be alright 'Cause we're chillin' in the summer time
Not a cloud in the sky
Everybody's feelin' fine
And everything will be alright 'Cause we're chillin' in the summer time
Not a cloud in the sky
Everybody's feelin' fine
And everything will be alright
